EDUCATION

ICFAI UNIVERSITY

B. Tech IN COMPUTER SCIENCE
Expected 2026 | Hyderabad, India | CGPA:
7.5/10

SRI CHAITANYA JUNIOR COLLEGE

Graduated May 2022 | Hyderabad,
India
8.8/10

COURSEWORK

Machine Learning
Software Engineering
Compilers
Cloud Computing
Computer Networks
Operating Systems
Artificial Intelligence
Information Retrieval Functional
Programming Unix Tools and Scripting

SKILLS

LANGUAGES : Python, JavaScript
(ES6+), SQL, PHP

Frontend: React.js, JavaScript
(ES6+), HTML5, CSS3, Responsive
Design

BACKEND

Flask • REST APIs • Session Handling

DATABASES

MySQL • PostgreSQL

CONCEPTS

Data Structures • OOP • DBMS •
Operating Systems • Networking

TOOLS

Git • Linux

PROJECTS

Privacy-Preserving RAG Chatbot (Thesis Project)

https://github.com/samanthraj/Rag_application_to_solve_privacy_and_hallucination

Developed the backend using Flask and built a dynamic frontend interface with React.js

Implemented document ingestion, chunking, and similarity search mechanisms to accurate contextEnhanced answer relevance and safety through structured prompting andstrictcontext filtering

YouTube Automation System | Python, APIs, Workflow Automation

<https://github.com/samanthraj/Youtube-content-creator-and-moderator>

Developed an automation framework to optimize repetitive YouTube creator workflows and publishing tasks. Built modular scripts for automating content processing, workflow management, and metadata handling. Integrated API-based automation for improving operational efficiency and reducing manual intervention. Structured the system for extensibility, enabling future integrations for analytics and content optimization

YouTube Content Creator & Moderator | Python, Automation, AI

<https://github.com/samanthraj/Youtube-content-creator-and-moderator>

Built an AI-assisted content workflow system to streamline YouTube content creation,moderation, and publishing processes. Developed automation pipelines for script organization, content analysis, and moderation to improve creator efficiency. Implemented persistent memory/context handling to maintain workflow continuity across multiple content sessions. Designed scalable backend logic to manage content lifecycle operations and reduce repetitive manual tasks.

CERTIFICATIONS

AI Fluency: Framework and Foundation by ANTHROPIC

Building with the Claude API

AWS Academy Graduate - Cloud Foundations
